## LIGHTEN UP

We couldn't be more hyped about Pantone's Color of the Year, Honeysuckle. So how to brighten up your décor with this fresh hue? We tapped Heather Rabold, window treatment and fabric specialist at **Sheffield Furniture & Interiors**, for tips. Says Rabold: "Add pillows to a neutral-colored sofa; add a throw on a chair; add new tassel tiebacks on your draperies." Pair with yellows and grays for a stunning contrast. *211 E. **MISS TRENDY** Italians know what's stylish, an indisputable fact evident in the latest collection from **Missoni Home**. The pretty but unpreppy checks of the Mark bedding collection are so cheerful, we look forward to waking up in the morning. Find this and other totally cute Missoni bedding sets, bath towels and more at Center City's specialty linens shop **Kellijane**. *1721 Spruce St.; kellijane.com*

**I SAW THE SIGN** "We both really love graphics—we love numbers and letters, and that's what really caught our eye," says Kathy Cochet of her and co-owner Anne Flynn's personalized wall-art business, **My Subway Sign**, established in South Jersey in 2009. The subway sign look-alikes become precious reminders of weddings, births and more—you name it, they'll engrave it. Signs are available in large and small sizes, and come in colors such as black, navy, red and green as well as the new "My Philadelphia" line, with options specific to Philly. *856-428-9991; mysubwaysign.com*
